PUBLISHED BY AUTHORITY

SIMLA, SATURDAY, JULY 13, 1957 (ASADHA 22, 1879)

Separate paging is given to this Part in order that it may be filed as a separate compilation

PART III—SECTION 2

Notifications and Notices issued by the Patent Office relating to Patents and Designs

THE PATENT OFFICE Patents and Designs

Calcutta, the 13th July 1957

Special Notice

The following publication is now on sale with the Manager of Publications, Civil Lines, Delhi, and also at the Government of India Book Depot, 8, Hastings Street, Calcutta 1, (for local sale only at the counter) at Re. 1 or 1*sh.* 6*d.* per copy:—

“The Annual Report of the Patent Office for the year 1955”.

CORRIGENDA

In the Gazette of India, Part III, Section 2, dated 8th June 1957, in page 134, Column 2, under the heading “Applications for Patents”—

Against No. 60604—

for “and” read “ant”

In page 137, Column 2, under the heading “Applications Accepted”—

Against No. 57605—

for “cargonaceous” read “carbonaceous”.

In page 138, column 2, under the heading “Applications Accepted”—

Against No. 59484—

for “Vereinigre” read “Vereinigte”.

In page 139, Column 1, under the heading “Renewal Fees Paid”—

after No. “47826” insert No. “47875”.

In the Gazette of India, Part III, Section 2, dated 15th June 1957, in page 141, column 1, under the heading “Corrigenda”—

Against No. 55702 in the title—

for “4-dicaffercylquinic” read “4-dicaffeylquinic”,
read “4-dicaffercylquinic” read “4-dicaffeylquinic”.

In page 141, column 2, under the heading “Applications for Patents”—

Against No. 60672—

for “Establishments” read “Etablissements”.

In page 144, Column 1, under the heading “Applications Accepted”—

Against No. 59377—

for “Godrej & Boyce Manufacturing Company Limited”
read “Godrej & Boyce Manufacturing Company Private Limited”.

In page 145, Column 1, under the heading “Registration of Designs”—

Against Class 1. No. 90317—

for “Middlesix” read “Middlesex”.

Against Class 13 No. 90667 and 90668—

for “M/s Megpi” read “M/s. Megji”.

In the Gazette of India, Part III, Section 2, dated 22nd June 1957, in page 147, Column 1, under the heading “Applications for Patents”—

delete “6th June 1957”

insert “6th June 1957” under “The dates shown in crescent brackets are the dates claimed under Section 78A of the Act.”

In page 148, Column 2, under the heading “Applications Accepted”—

Against No. 55636—

for “Lucious” read “Lucius”

In page 150, Column 1, under the heading “Applications Accepted”—

Against No. 57970—

for “By reacting -[1-ethyl-piperidyl-(2)]”,
read “By reacting α -[1-ethyl-piperidyl-(2)]”.

Alteration of Date

56295 The claim to priority date 22nd January 1955 has been disallowed and the application dated as of 13th January 1956, the date of filing in India.

59247. Ante-dated to 29th February 1956 under Section 5 of the Act.

59248. Ante-dated to 29th February 1956 under Section 5 of the Act.

59956. Ante-dated to 29th September 1955 under Section 5 of the Act.

59957. Ante-dated to 29th September 1955 under Section 5 of the Act.

59958. Ante-dated to 29th September 1955 under Section 5 of the Act.

Application for Patents

The dates shown in crescent brackets are the dates claimed under Section 78A of the Act

The 27th June 1957

60918 P. D. Karapurkar Two double seats in bed.

60919 J. R. Geigy A. G. Coloured condensation products and process for the production thereof.

60920 E. D. O. Bernier. Improvements in or relating to Mastics.

60921 Council of Scientific and Industrial Research. Improvements in the method for manufacture of ether.

60922. K. R. Amin. Modification and improvement in manufacturing the 4B type pickers used in Cotton Weaving Industries.

60923. R. R. Pardasani. Multiple key lock.

50924. Farbwerke Hoechst Aktiengesellschaft vormals Meister Lucius & Bruning. Process and apparatus for the manufacture of thermoplastic films.

60925. Farbwerke Hoechst Aktiengesellschaft vormals Meister Lucius and Bruning. Process for fixing pigments on fibrous materials and two-dimensional structures.

60926. Licencia Talalmanyokat Ertekesito Vallalat. Fluid reservoir on mast.

60927. Takeda Pharmaceutical Industries, Limited. Vitamin A aldehyde derivatives and production thereof.

60928. N. V. Organon. New biologically active compounds from oleaceae and the preparation thereof.

60929. Ananta Kumar Datta. Improvements in or relating to manufacture of cementing materials. [Addition to No. 25205.]

The 28th June 1957

60930. United Kingdom Atomic Energy Authority. Improvements in or relating to Chemical Exchange Processes. (4th July 1956).

60931. United Kingdom Atomic Energy Authority. Improvements in or relating to chemical exchange processes. (4th July 1956).

60932. Ozalid Company Limited. Improvements in or relating to the preparation of paper and other fibrous base materials. (3rd July 1956).

60933. Ramapati Ghosh. Group or gang operated rotatable insulator switch.

60934. The Wellcome Foundation Limited. Diaminoquinoxalines and method of preparing.

60935. Thoma Company G.m.b.H. Suction tube for devices for sucking up broken thread ends in spinning machines.

60936. R. S. Curry. Improvements in or relating to cooling and cold storage apparatus.

60937. The Administrators of the Tulane Educational Fund. Preparation of therapeutic agent.

The 29th June 1957

60938. D. Yeeda. Improvements in or relating to Mathematical Instruments.

60939. M. A. Chaudary. Improvement in and relating to tea.

60940. J. P. Sood. Improvements in and relating to the processes of manufacturing tea—improved type kutcha tea sorter (also called the Green Leaf Sifter).

60941. The Indian Oxygen & Acetylene Company Private Limited. Storage Vessels for Liquefied Gases. (3rd July 1956).

60942. The Indian Oxygen & Acetylene Company Private Limited. Removal of Fume from Gases. (6th July 1956).

60943. The Indian Oxygen & Acetylene Company Private Limited. Welding Electrode. (19th July 1956).

60944. The Indian Oxygen & Acetylene Company Private Limited. Method and electrode for electric arc welding. (26th November 1956). [Addition to No. 60625.]

60945. The Indian Oxygen & Acetylene Company Private Limited. Method and electrode for electric arc welding. (19th December 1956).

60946. Ricardo & Co., Engineers (1927) Limited. Improvements relating to internal combustion engines of the compression ignition type and to hot plugs for them. (5th July 1956). [Addition to No. 55493].

60947. British Nylon Spinners Limited. Improvements relating to the electrical measurement of a physical state of a thread or the like.

The 1st July 1957

60948. P. D. Karapurkar. Transferable electric signs.

60949. Imhausen Werke G.m.b.H. Method of preparing esters of phthalic acids. (2nd July 1956).

60950. L. S. Chettiar. Effective protection of Fluorescent Tube Lights used for Public lighting in streets, thoroughfares, road junctions, public fairs and festivals, public gardens, public shows, entertainments etc. from wind and weather, dust and storm and seasonal exposures etc. Entitled The Tube Light Protective Covers.

60951. Stahlgruber, Otto Gruber & Co. Means for repair of tubeless tyres for motor cars. [Divisional date 17th April 1956].

60952. Premier Industries. Fixtures for fluorescent tubes.

60953. United Engineering and Foundry Company. Rolling Mill.

60954. Narendra Chandra Bhattacherji. Musical Instruments such as Harmoniums, Pianos & Organs.

60955. Associated Automation Limited. Telephone Coin Collectors. (2nd July 1956).

60956. Rosan Engineering Corp. Sheet Metal Fastener.

60957. Organon Laboratories Limited. Process for the manufacture of adrenocorticotropic hormone preparations.

60958. Vameco Trust Fur Vacuum-Technik Reg. A method and means for vapour coating strips, especially paper strips, in vacuum.

60959. Mehta & Company. Improvements in or relating to processes for rendering cement slabs, brick plaster work and like articles waterproof.

The 2nd July 1957

60960. PECHINEY Compagnie de Produits Chimiques et Electrometallurgiques. Process for producing pure manganese.

60961. PECHINEY Compagnie de Produits Chimiques et Electrometallurgiques. Process for the reduction of aluminium oxide.

60962. The Dow Chemical Company. Stabilized Compositions of Vinyl Aromatic Polymers and Synthetic Rubbers.

60963. Fords (Finsbury) Limited and L. C. Snelling (London) Limited. Improvements in or relating to closing and sealing bottles and other receptacles. (10th July 1956).

60964. R. P. Heuer. Improvements relating to refractory bricks. (2nd July 1956).

60965. Standard Telephones and Cables Limited. Circuit arrangement for the transmission of signal pulses according to the voltage-comparison method.

60966. Technion Research and Development Foundation Ltd. and S. Davis. Arrangement for measuring the quantity of water flowing through an open channel.

60967. Ciba Limited. New monoazo-dyestuffs and their manufacture and use.

60968. Ciba Limited. New monoazodyestuffs, their application and process for their manufacture.

60969. Ciba Limited. New azo-dyestuffs, their manufacture and use.

60970. Societe Rhodiaceta. Continuous Production of Cellulose Esters.

60971. Societe Rhodiaceta. Process for the Production of Threads, Fibres, Films and Analogous Articles.

60972. Societe Rhodiaceta. Improvements in or relating to a process for the Production of Shaped Articles of Cellulose Acetate.

60973. Farbwerke Hoechst Aktiengesellschaft vormals Meister Lucius & Bruning. Azo-dyestuffs insoluble in water and process for their manufacture.

60974. V. M. J. Ancet and M. Fayolle. Improvements in shuttleless weaving looms.

60975. The British Thomson-Houston Company Limited. Improvements in and relating to electric lamps. (16th July 1956). [Addition to No. 58212].
The 3rd July 1957

60976. Babcock & Wilcox Limited. Improvements in Tubulous Heat Exchange Apparatus.

60977. Claude Paz et Visseaux. Cold and hollow electrode. [Addition to No. 56006].

60978. International Mac Gregor Organization (I. M. G. O.). Improvements in or relating to a device for closing open spaces or vehicles such as ship's hold hatchways, railway open-trucks and similar applications. (19th March 1957).

60979. Zeuthen & Aagaard A/S. Registering mechanism for the accurate feed of sheets of paper to a printing device, particularly a duplicating machine.

60980. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to image screens having a photo-sensitive layer and a luminescent layer associated with one another in elements.

60981. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to electroluminescent elements.

60982. Standard Telephones and Cables Limited. Registration of calls in telecommunication exchanges. (4th July 1956).

60983. Ciba Limited. Process for the manufacture of a hydrogenated antibiotic in unitary form.

60984. Ciba Limited. Process for the manufacture of prophylactics.

60985. Ciba Limited. Method for preparing granulations.

60986. Ciba Limited. Disazo-dyestuffs and process for their manufacture.

60987. Ciba Limited. New azo-dyestuffs and process for their manufacture and use.

60988. F. L. Smidh & Co. A/S. Apparatus for cooling granular or pulverous materials.

60989. N. V. Inland. A carrier means for a conveyor moving in a cycle in a match making machine.

60990. N. V. Inland. A device for inserting match splints in holes of conveyor or intermediate means.

60991. T. L. Seaborne. Valves for milking machines.

60992. Hartung, Kuhn & Co., Maschinenfabrik G.m.b.H. Door-extracting mechanism for coke pushers.

60993. Fuji Bussan Company, Ltd. Transport concrete mixer.

60994. Dr. S. Siddiqui. A process for the isolation of alkaloids and alkaloidal complexes from the Rauwolfa species of plants.

60995. Dr. S. Siddiqui, Dr. R. Deininger and M. A. Din. A pharmaceutical composition for the treatment of hypertension.

60996. C. A. Parsons & Company Limited. Improvements in and relating to dynamo-electric machinery. (6th July 1956).

60997. Norton Portland Corporation. Improvements in Soil Conditioning Apparatus.

Applications Accepted

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of this Gazette of India give notice to the Patent Office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933 of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Government of India Book Depot, 8, Hastings Street, Calcutta, in due course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of specifications as shown in the following list.

If required typed copies of the specification together with copies of drawings, if any, can be supplied by the Patent Office on payment of the necessary charges which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

55527. Merco Centrifugal Company. Centrifugal machine and method. Accepted on 1st July 1957.

Annular zone of continuously moving material around rotor periphery adjacent underflow discharge nozzles maintained by conducting and discharging material separate from feed material in proper disposition around outer perimeter of interior of rotor.

55661. Dr. R. P. Daroga and Tata Chemicals Limited. Preparation of ethylene dibromide. Accepted on 3rd July 1957.

Wherein crude ethylene dibromide product obtained is added to liquid bromine in order to start the absorption reaction.

56163. S. Fukuda. Current limiter of fuse system. Accepted on 27th June 1957.

Having a disk to be fitted with fuse board.

56175. Commonwealth Scientific and Industrial Research Organization. Method and means for continuously extracting an adsorbable solute from a clear solution or from a suspension of finely divided solids in a liquid. (4th January 1955). Accepted on 28th June 1957.

By retaining a bed of granular absorbent in a column pulsating a flow of solution up through the bed to semi-fluidize it, and drawing off a slurry of absorbent.

56193. South African Iron and Steel Industrial Corporation Limited and The Armco International Corporation. Process and apparatus for making tin-and-terne coated ferrous sheets. (4th October 1955). Accepted on 1st July 1957.

Coating ferrous strip with tin or terne by hot dipping.

56200. Imperial Chemical Industries Limited. Improvements in or relating to a method for insolubising artificial filaments, threads, fibres and the like. Accepted on 2nd July 1957.

Treating the bundle of filaments successively with aqueous salt solution, formaldehyde at a pH of not higher than 3, washing, stretching and drying the filaments.

56234. I. Matsuda. An automatic rotary type machine for making rubber-soled shoes or boots. Accepted on 3rd July 1957.

Comprising intermittently-rotating circular rotary base, an operating table set tangential to rotary base and two conveyors, one set on right and other or left side of the table, rotary base equipped with compressor units actuated by vertical pistons and with horizontal pistons each corresponding to respective compressor unit arranged to bring about outward and inward motion of female shoe or boot mould, the heating of which is stopped or commenced automatically.

56236. Ruhrchemie Aktiengesellschaft and Lurgi Gesellschaft fur Warmetechnik m.b.H. Process for the hydrogenation of carbon monoxide. Accepted on 2nd July 1957.

Relates to a process of hydrogenation of carbon monoxide, using cobalt, nickel or iron catalysts in precipitated form wherein the catalyst mass is extracted with hydrocarbon liquids.

56250. Mannesmann Aktiengesellschaft. Improvements in or relating to hydraulic presses. Accepted on 3rd July 1957.

Consisting of an outer cylinder, an inner cylinder, an annular piston, a hollow piston rod and means for coupling a rod shaped element to the piston rod.

56277. British Insulated Callender's Cables Limited. An improved method of shaping vulcanisable rubber compounds by extrusion. (24th January 1955). Accepted on 29th June 1957.

Preparing elongated strips from two batches containing vulcanising agents working in conjunction with each other and feeding in extruder.

56295. Heinrich Koppers Gesellschaft mit beschränkter Haftung. Process for the production of 'Gasol' olefins, more especially ethylene. Accepted on 29th June 1957.
Heating of the solid heat carriers is effected by direct and continuous introduction of flue gases obtained by forming a fuel.

56365. Union Carbide Corporation, formerly known as Union Carbide and Carbon Corporation. Thin flexible self-sustaining unsupported polyethylene film and method of making the same. Accepted on 28th June 1957.
Melt-extruding the film forming polyethylene through an annular orifice and blowing said tube while in the plastic condition.

56485. Ciba Limited. New oxadiazole compounds and process for their manufacture. Accepted on 1st July 1957.
A para amino aryl carboxylic acid is diazotized and coupled with an aminoaryl compound free from hydroxyl groups and the O-aminoazo grouping is oxidised to triazole ring and the oxadiazole being is formed by splitting out water.

56610. R. W. Crabtree & Sons Limited. Improvements in web renewing mechanism. (25th February 1955). Accepted on 2nd July 1957.
Comprising a device which when the running roll reaches a pre-determined diameter, sets into action a mechanism to respond to the length of web drawn from the roll, the mechanism including means for web-renewing operation into action.

56615. VEB Spinn-und Zwirnereimaschinenbau Karl-Marx-Stadt. Brake for a bobbin-holder of coiling or similar machines. Accepted on 2nd July 1957.
Comprising a band-brake, the band embraces a segmental shaped brake block fixed to the bobbin holder.

56623. Imperial Chemical Industries Limited. New pharmaceutical compositions. (25th March 1955). Accepted on 2nd July 1957.
The composition comprises an aqueous suspension of bis-(4 aminophenyl)sulphone, a wetting agent and a suspending agent.

56624. Imperial Chemical Industries Limited. New pharmaceutical compositions. (25th March 1955). Accepted on 2nd July 1957.
The composition comprises 4:4'-diamino-diphenyl sulphone in aqueous solution of disodium 4:4'-diamino-diphenyl surphone- α : α -disulphonate in the presence of a wetting agent and suspending agent.

56626. Monsanto Chemicals Limited. Improvements relating to glues containing phenolic resins and to plywood and similar materials bonded with such glues. (25th March 1955). Accepted on 2nd July 1957.
Glue comprises an alkaline condensed phenolic resin and a salt of silicofluoric acid.

56655. Chas. Pfizer & Co. Inc. Therapeutic agents and the preparation thereof. Accepted on 2nd July 1957.
An aqueous suspension of a water insoluble therapeutic agent is mixed with a solution of one of the polyhydroxylated compounds viz., sorbitol, sucrose, levulose, maltose, galactose, sorbose and dextrose.

56669. Ciba Limited. New alkylated pyrazolo-pyrimidines and process for their manufacture. Accepted on 2nd July 1957.
A 3-amino-pyrazole-4-carboxylic acid and a carboxylic acid are reacted together, one of the two carboxyl groups of the reactants being functionally converted and containing nitrogen atom.

56672. The British Tabulating Machine Company Limited. Improvements in or relating to data storage apparatus. (20th April 1955). Accepted on 2nd July 1957.
Including two or more magnetic storage cores, each switchable to either of two magnetic states.

56688. Colgate-Palmolive Company. Oral compositions. [Addition to No. 48155]. Accepted on 29th June 1957.
Comprising a saturated aliphatic acyl amide of an amino carboxylic acid and an organopolysiloxane.

56706. Braithwaite & Company (India) Limited. Improvements in and relating to pontoons for underwater foundation and like construction. (16th March 1955). Accepted on 27th June 1957.
A permanently floating portion in association with a platform portion which is adapted to be tilted to pitch a member endwise from a horizontal position on the pontoon.

56781. Heinrich Koppers Gesellschaft mit beschränkter Haftung. Arrangement for gasifying finely divided solid fuels in suspension. Accepted on 29th June 1957.
Pressure condition in the supply pipes is supervised by a pressure-measuring device.

56791. The Dow Chemical Company. Improvements in or relating to method of removing impurities from solutions. Accepted on 3rd July 1957.
Adding an excess of a water soluble persulphate to a water solution of at least 40 per cent salt concentration.

57051. Marconi's Wireless Telegraph Company Limited. Improvements in or relating to receiving aerial systems. (4th May 1955). Accepted on 28th June 1957.
Including one aerial portion adapted maximally to receive waves of one plane of polarisation, another aerial portion adapted minimally to receive waves of another plane of polarisation and means for producing in phase signals and combining them.

57060. The Indian Oxygen and Acetylene Company Private Limited. Mixer tube and handpiece union for welding blowpipes. (20th April 1955). Accepted on 2nd July 1957.
Comprising a mixer tube and handpiece union for welding blow pipe having a spigot on the outlet end of the handpiece having a bore and a counter bore into which two gas passages respectively.

57061. The Indian Oxygen and Acetylene Company Private Limited. Flame tip or nozzle for welding blowpipes and method of making it. (20th April 1955). Accepted on 2nd July 1957.
Making a flame tip for welding blow pipe by inserting a tip sleeve as a close fit inside the outlet end of a blow-pipe tube.

57278. Ocrietfabriek N. V. Method for increasing the resistance to chemical corrosion of concrete articles by means of gaseous SiF_4 . Accepted on 3rd July 1957.
The articles free from free chalk and containing silicates and/or hydrosilicates are treated with SiF_4 in dry condition.

57375. The British Tabulating Machine Company Limited. Improvements in or relating to electronic calculating apparatus. (23rd June 1955). Accepted on 2nd July 1957.
Operating on the successive halving and doubling principle, in which successive denominations of a number are operated upon time sequence.

57416. The Singer Manufacturing Company. Carbon-pile controller with built-in snap-action switch. Accepted on 27th June 1957.
Including carbon compression resistor, an operating pull-rod and spring means controlled by the rod to apply variable pressure to the resistor and a snap-action switch in series with the resistor and operatively connected to pull-rod for initial limited range of movement of pull-rod and disconnected from the pull-rod from movement beyond this range.

57913. Dunlop Rubber Company Limited. Improvements relating to upholstered structures. (21st October 1955). Accepted on 3rd July 1957.
Resilient cushioning members comprising bodies of resilient polyurethane foam having a member of linearly extended incision on the surface.

58020. The Dow Chemical Company. Improvements in or relating to stabilization of polymerized olefinic materials. Accepted on 1st July 1957.
Comprising a polymerised olefinic material, 0.01 to 2 per cent of a non-darkening antioxidant additive substance and 0.1 to 2 per cent of an ultraviolet light absorbing additive substance.

58205. Caterpillar Tractor Co. Two speed scraper apron. Accepted on 29th June 1957.
Automatically operable means increases the rate of movement of the apron after it rises a short distance.

58806. Automatic Telephone and Electric Company Limited. Improvements in loading coil containers. (24th November 1955). Accepted on 27th June 1957.
Conductor from stuts cables pass in spaced relationship through a barrier of solidified cold setting resin.

58807. Glaxo Laboratories Limited. Improvements in or relating to human dietary preparations. (11th November 1955). Accepted on 28th June 1957.
Comprising a pulverulent water-dispersible assimilable protein of low bulk density and a stable assimilable bland flat absorbed in said protein.

58965. Von Kohorn International Corporation Incorporated. Thread guide for winding of yarn cakes of synthetic fibres. Accepted on 2nd July 1957.
Comprising a funnel having an upper funnel portion and a depending elongated tubular stem having a bottom downwardly directed discharge opening.

58982. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to methods of manufacturing an electrically conductive pattern on an insulating support. Accepted on 28th June 1957.
Including the steps of forming by electroplating on a parting layer, providing a non-conductive resist to the electroplated layer in the negative image of the desired pattern, depositing conductive metal on the electroplated layer not covered by the resist.

59124. Casablanca High Draft Company Limited. An improved storage device for the replacement bobbins of speed and ring spinning frames. Accepted on 1st July 1957.
Bobbin holders spaced along carrier rail arranged lengthwise of the creel hold bobbins releasably.

59168. British Insulated Callender's Cables Limited. Improvements in or relating to electric capacitors. (23rd December 1955). Accepted on 28th June 1957.
Rectangular prism shaped capacitor units spaced apart and so placed that the lower face of each prism overlaps the upper face of the prism below it.

59247. Ciba Limited. Process for the manufacture of pyrazoles. [Divisional date 29th February 1956]. Accepted on 2nd July 1957.
 α -cyano- α -formyl acetic acid containing in α -position a hydrogen atom, is reacted with a hydrazine containing at least 3 hydrogen atoms attached to the ring nitrogen atoms.

59248. Ciba Limited. Manufacture of new pyrazolo-pyrimidines. [Divisional date 29th February 1956]. Accepted on 2nd July 1957.
A 5-unsubstituted 2-aryl-3-amino-pyrazole-4-carboxylic acid and a carboxylic acid are reacted together care being taken that at least one of the two carboxyl groups is functionally converted and contains nitrogen atom.

59359. Metropolitan-Vickers Electrical Company Limited. Improvements in and relating to circuit arrangement for voltage transformers. (24th January 1956). Accepted on 27th June 1957.
Capacitor coupled to secondary circuit of transformer through a high ratio current transformer.

59460. I. Maruyama. Improvements relating to head frame. Accepted on 27th June 1957.
Upper beam of the inner frame held tight within the outer frame or released therefrom.

59891. Universal Metal Products Limited. Improvements relating to container closures. Accepted on 2nd July 1957.
Comprises a screw cap with a radiused or tapered surface on either the cap or the neck.

59956. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to a method of producing substituted alkylamines. [Divisional date 29th September 1955]. Accepted on 29th June 1957.
By reacting substituted amino-propane with substituted bromo propanone.

59957. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to a method of producing substituted alkylamines. [Divisional date 29th September 1955]. Accepted on 29th June 1957.
By hydrogenating a phenoxy alkanone in the presence of equimolar quantities of phenyl alkylamine or phenyl alkanol amine or phenyl alkanone amine.

59958. N. V. Philips' Gloeilampenfabrieken. Pharmaceutical preparation containing new substituted alkylamines. [Divisional date 29th September 1955]. Accepted on 29th June 1957.
Containing 1-40 per cent of substituted alkylamines together with a diluent or carrier.

60735. Nihar Chandra Roy. Improvements in or relating to refractory and heat insulating bricks, blocks, slabs, tiles and the like. Accepted on 2nd July 1957.
Mixing paddy husk ash with iron oxide granules and water, adding an organic binder to the mix, moulding the product into desired shapes, drying and finally firing it.

Patents Sealed
